THE FORTNIGHTLY

Review

OF THE CHICAGO DENTAL SOCIETY

THIS WE BELIEVE AT KENNEDY...

Edward Bulwer-Lytton on TIME:

“Time, O my friend,
is money! Time
wasted can never
conduce to money
well managed.”

In the last quarter of a century we have seen the public become ever more service conscious. Today fast service is virtually a requisite to building a successful practice. But fast service remains an asset only as long as top quality is maintained. We can construct restorations of excellence for you, as we have for so many members of the profession, while saving you priceless time.

WHAT A STRADIVARIUS
SYMBOLIZES IN VIOLINS...

CARBOCAINE

SYMBOLIZES IN LOCAL ANESTHESIA...WITH ITS NEW,
UNIQUE AND UNSURPASSED STANDARDS OF PERFORMANCE.

From the performance of Carbocaine in scores of blind clinical investigations and in millions of applications in actual practice emerges this pattern...

- Carbocaine is remarkably well tolerated, both locally and systemically.
- Carbocaine frees patients sensitized to procaine from allergic responses to procaine-related local anesthetics.
- Carbocaine's effectiveness is consistently excellent.
- Carbocaine's onset is very, very rapid, frequently reported as "immediate".

We urge you to try Carbocaine now and see for yourself. Your dental dealer stocks it in 1.8 cc. min. cartridges, 50 cartridges per can. Or write for clinical samples and detailed literature to the pioneer in dental local anesthesia...

Contributions: Manuscripts should be typewritten, double spaced, and the original copy should be submitted. Every effort will be made to return unused manuscripts if request is made, but no responsibility can be accepted for failure to do so. Anonymous communications will receive no consideration whatever. Manuscripts and news items of interest to the membership of the society are solicited.

Forms close on the first and fifteenth of each month. The early submission of materials will insure more consideration for publication.

SHIP YOUR HARD STONE MODELS TO US

FOR ALL TYPES OF JACKETS, GOLD INLAYS AND BRIDGES

USE BUSINESS REPLY LABEL (BELOW)
NO POSTAGE, NO MONEY, NO C.O.D.

HARD STONE MODELS that you make from your **HYDROCOLLOID, ALGINATE, SILICONE** and **RUBBER** impressions are now gladly accepted for the construction of beautifully natural-appearing and perfect fitting porcelain jackets and bridges.

We use Kerr's VEL-MIX for our stone models.

Please do not place dowel pins or cut model apart, we will do that. We suggest that you fill impression with stone to about one-half inch higher than neck of teeth. This is very important.

The hard stone model you send us should include the prepared tooth or teeth with an additional two or three teeth on either side. Also, a stone model or tray impression of the opposing teeth and a shallow wafer wax bite.

We do not disassemble or duplicate your model. We keep it intact, just as you send it to us. We ship your restoration to you on your original model. As your model is, so shall the restoration be.

WHY NOT TELL THEM?

Orville C. Larsen, Assistant Editor

There are benefits to be gained by each of us through fellowship with men in our own profession. The working together toward a common goal, the exchange of ideas and the discussions of common problems, the challenge to develop wider skills and expanded knowledge, only by this close association can we keep pace with our rapidly moving profession. By membership in a dental society, in our case the Chicago Dental Society, this "togetherness" can be achieved.

Of course, to benefit the most from this association with our professional colleagues through membership in the Society, it is necessary for each of us to use our membership to the fullest. This includes, especially, attendance at Society meetings, and in order to keep our Society growing, why don't you make a serious effort to bring to the meetings any eligible men whom you might know who are not members. Tell them just what the Society is doing for its members. Tell them the benefits they, themselves, will receive, and of what organized dentistry is doing for the good of the entire profession and for the better dental care of the public that it serves. If you are aware of all these things, your enthusiasm will get them across to that non-member, who perhaps has never fully understood the purpose of "belonging."

The chief aim of the Chicago Dental

Society is to encourage the dental health education of the public and to promote the science and the art of dentistry. The Society underwrites a never-ending program for this purpose. From newspapers, magazines, pamphlets, radio and television, the public learns the importance of good dental care. We finance a motion picture program in the schools, we direct annual diagnostic surveys of commercial plants where the entire personnel is x-rayed, examined, and each individual's dental condition appraised. An efficient and experienced public relations firm retained by the Society works with the committee on dental health education in preparing information for public consumption. In addition, this committee also works to protect the public from overrated or untrue advertising. Both the profession and the public are benefited, and it is brought about by the unstinting work of men in our Society.

Probably our proudest possession is our Code of Ethics. Each Society member is bound by a code of personal and professional conduct which protects the dentist and the patient from all who attempt to victimize the public. In fostering the Code and requiring adherence to it, the Society is performing a function the State imposes upon it in return for its lawful charter. This insures that dentistry in your

Editorial

The Crusade of Mercy

As you have seen from the press stories in our daily newspapers, the Crusade of Mercy in Chicago is under way to raise some \$15,357,752 (the campaign goal) for the unfortunate, the widowed, the orphaned, the bewildered and confused youth, the aged, those upon whom catastrophe has befallen and to whom this help may in many cases mean life itself. This Crusade is an endeavor to gather funds for a number of agencies such as the Red Cross, welfare agencies, religious charitable agencies, and many others in one great effort to conserve time, administrative costs, and repeated solicitation. It is hoped that each of us will do our very best to give generously and freely to those in dire need.

In many cases you may be solicited personally by a neighbor and/or someone in your community; should you so desire, give generously to that solicitor. The Society will limit its solicitation as a profession to a personal letter of appeal by our President, Dr. James N. Lynch, which should reach you very shortly. In case you are a resident of a community outside of Chicago, one which has its own Community Chest drive, we hope that you make your contribution there, and if you would also like to help our Crusade in Chicago, we would deeply appreciate your contribution. Mail your check to The Crusade of Mercy, 123 W. Madison St., Chicago 2, Illinois, and ask that it be credited to the dental profession.

May we repeat that there will not be a personal solicitation by the Society for this is contrary to the policy laid down by the Board of Directors on all society-wide solicitations. A letter over the President's signature is it! On the surface this may appear a bit hard but years of experience have taught that it is the only way it can be done. The fact that the Chicago Dental Society boundaries encompass three counties and therefore a good number of communities having their own Community Chest drives, that the distribution of most dentists is wide except in the Loop area and that the Society central office is very limited in its staff and could not handle the many details involved in this type of drive, make the solicitation by letter the only practical way to handle all drives of this nature. If it appears that we have gone too much into detail it is to forestall any misunderstanding as to our sincere interest in doing the very best kind of job.

Again may we urge a generous response to Dr. Jim Lynch's appeal for those who are in need. Your gift will bring help to the needy and to you a blessing for having shared. Send that check at once!—*E. Ebert.*

or better yet phone Jules at Pilgrim 8-2800.*

News of the Branches

West Side

Received very interesting news from George Hochman who recently has returned from a four-month trip to several foreign countries among which are Canada, England, Holland, Switzerland, Italy, France, Monaco and Israel. Along the route George visited several colleges and private dental offices. Israel was very interesting in that George visited many places of special significance to all of us. This list includes the old and new sections of Jerusalem. Visits were made to King David's Tomb, the Shrine of the Virgin Mary, David's Tower, the Wailing Wall, Mount Zion, Bethlehem, King Solomon's Mines, the Sea of Galilee and other places as well. George was taken about by automobile and had a leisurely nice time. . . . Sam Rakow reports the fatal accident of Louis Vanrell who was injured in an accident while vacationing in Cuba. Louis was returning to Havana from a motor trip when the car in which he was riding was struck from the rear. He was hospitalized and was apparently recovering when he suffered a relapse. Louis was a member of our branch for many years and it is with sadness that we report this to his many friends on the West Side. . . . Sam Rakow has been sidelined by phlebitis but is now sound of health and back in the office. . . . Vacationing isn't out of season for Howard Rosen. He and Mrs. Rosen are flying TWA jet to the A.D.A. meeting in Los Angeles. San Francisco and Las Vegas will be visited. Howard figures a little cash from Las Vegas won't hurt his good time. . . . Our first meeting will no doubt be a successful one so keep the ball rolling for the rest of the year. . . . Plan now to attend the day-long seminar on periodontics the Society is presenting on Wednesday, November 16th. Coupled with the program on Tuesday night, the 15th, it is a complete postgraduate course. . . . See you all soon again.—A. J. Kelleher.

Northwest Side

At the time you will be reading this column the first meeting of our fall session will have become a pleasant memory to all of those members who have attended. We sincerely hope that there were not any members who were not cognizant of the change in location of our meetings to the Chanteclair, 2304 N. Narragansett Ave. There is still some time left for those who wish to take advantage of the opportunity to become participants in the special two-day courses being offered to branch members. The first special session is scheduled to meet Wednesday, November 2nd, at the Chanteclair. The person to call in regard to these sessions is Ted Ferguson at AL 2-1760. Hurry! this is your last opportunity to avail yourself of this wonderful opportunity. . . . Congratulations to Ted Weclaw and A. L. Knab for the wonderful article of which they were co-authors and which appeared in the September issue of *Oral Hygiene*. The title is "For General Practitioners Only" and I understand that the response to the article is very gratifying, the fan mail is still coming in. . . . A few at-random notes about some of our members. . . . Ted Serr's car was recently broken into while it was parked in his garage and all his golf clubs were removed and neatly laid out on his back lawn. I guess whoever removed them thought that he may be in need of some extra practice—could it just be a gentle hint, Ted? . . . Don and Mrs. Mammen are enjoying a brief vacation in New York, a sort of relaxation away from the small town of Chicago. . . . Alf Altern is also hiding away at his cabin retreat in the Wisconsin woods for a few days where he will enjoy a brief respite from everyday workaday activities. He has always been a vigorous and enthusiastic Kiwanis member and even before he could leave for this brief vacation he had to attend a district meeting of the Kiwanis at the

Sheraton Towers (this is true blue loyalty to a very fine cause). . . . Another fine couple planning to attend the A.D.A. convention in Los Angeles is Stanley and Mrs. Broniarczyk. They will do it the leisurely way by seeing the West and Northwest on a circle tour to the convention. . . . By the way, the Academy of General Dentistry will have an exhibit in the scientific section at Los Angeles. Just a reminder to any of those who may be interested. . . . Mark Spencer recently attended the Northwestern Alumni Association meeting as a class representative. . . . Vic Weclaw is proud of his offspring, Vic, Jr., who is doing well in scouting by earning his bronze palm which is to be added to his eagle award; nice going, Vic, Jr. . . . Joe Ullis recently saw his daughter off to Barat College where she will be a senior resident student. . . . The next branch meeting will be held Tuesday, November 1st, at the Chanteclair and this will be a bonus meeting for all those who plan to attend as the subject matter to be discussed will be very pertinent to all who desire to do better dentistry in the field of dentures. . . . May we also suggest that all branch members look elsewhere in this issue of the *FORT-NIGHTLY* for the announcement of a special series of lectures to be given by the Academy of Dental Psychosomatics. . . . Plan now to attend the day-long seminar on periodontics the Society is presenting on Wednesday, November 16th. Coupled with the program on Tuesday night, the 15th, it is a complete postgraduate course in this fast-growing phase of dental care. —*Chester L. Jasick, Branch Correspondent.*

Englewood

It's Brother Waska's turn to write the news but seeing as how Brother Waska is celebrating his 50th birthday and is ailin' a bit this month, he called me up and—well, so I'm writin' it, ain't I? I tried to tell him I was retired from the writin' committee and besides I lost my pencil but he kept bangin' away till I crossed

my heart and spit, so there! . . . Now as for you as don't know what the real functions of "Donna and Ethel" are, I will herewith enlighten you. Mother Nature at certain times of year just figures she has to blow up a big wind that's strong enough and fearsome enough to drive a lot of these here sun lovin', fun lovin', golf playin' dentists back to (ugh) work again. To no avail, however, for I gather from the wind that blows the news around, that as soon as they get it swept up a little, there is a whole new bunch ready to go down again. "I just can't understand this," says I to Bill Rowan, whose office is across the street from mine, "I am a fastidious home loving person who enjoys my house and loves to putter in the yard." "Yeah," Bill says to me, "I'm broke, too." . . . So, let's get on with it. Ray Van Dam, Wally Miller, Ed Wach, John Manning, and Joe McMahon all got muscle-bound between the ears this summer attending seminars here and there. . . . Bill Hillemeier did some diggin' around New York City, Coopers-town and Ottawa this summer and is planning to go to L.A. and Honolulu, as are also Harold Hayes, Bob Straub, Ben Partridge and Paul Kanchier. I suppose a whole passel of others, only daw-gone it, I can't ketch each one of you personally. If you don't call your correspondent and tell him stuff, he's got to dream up some fibs or write a pome or something. . . . I wonder how many of you noticed how fine our Pres. Bob Tharp handled our opening meeting, even though some of the boys, while I am sure they didn't mean it and of course we were all tipling a bit and after all, it was the first time we met together this year, etc., etc., but gee whiz, fellows, let's keep one thing in mind, will ya, when the President calls for order, let's all in a body—SHUT UP. . . . Pappy Malcolm Brooks attended the 4th annual Dental Health Conference at Springfield. Ever notice, Malcolm is not a noisy one but by golly, he's always quietly chewing away on something that makes it better for the rest of us. . . . Now as for me, my place at Paw-Paw is

NORTHWEST SIDE MEETING AND ALL-DAY SEMINAR

The Northwest Side Branch and the Academy of General Dentistry are holding joint meetings on Tuesday evening, November 1st and on Wednesday all day (9:30 a.m. to 4:30 p.m.), November 2nd, at the Chanteclair, 2304 N. Narragansett. Dr. A. H. Grunewald will be the guest lecturer at both sessions; his topic, "Dentures." Please send reservations to Jack Applebaum, 4000 W. Lawrence Avenue, Chicago; MULberry 5-1838.

SORRY!

We apologize to Dr. Raymond M. Bro, Librarian of the North Side Branch, whose name was not listed in the roster of Branch Officers and Committees published in the September 15 issue. Through an unfortunate error the name of Dr. Paul Brown appeared as the holder of that office.

FAR WEST STUDY CLUB OCTOBER MEETING

Elmer J. Hoffman, United States Representative, will speak at the next meeting of the Far West Study Club which will take place on October 27th at Louis' Restaurant, one-quarter mile west of Route 83 on Lake Street, Addison, Illinois. Cocktails, 6:30; dinner, 7:30 and the program at 8:30.

ISAAC SCHOUR TO BE HONORED

Dr. Isaac Schour will be honored by the Dental Division of State of Israel Bonds and Alpha Omega Fraternity at a dinner on November 2nd at the Covenant Club ballroom. Dr. Maury Massler will be dinner chairman.

For reservations call Dr. Bernard Spiro, 55 E. Washington Street; CEntal 6-5650.

ATTENTION! ACADEMY OF GENERAL DENTISTRY MEMBERS

The Monthly Program and Seminar on Periodontics of the Chicago Dental Society to be held at the Conrad Hilton Hotel on Tuesday evening, November 15th, 8:00 p.m., and all day Wednesday, November 16th, from 9:00 a.m. to 5:00 p.m., will be an accredited postgraduate course of instruction for members of the Academy of General Dentistry. For the all-day Wednesday program there will be a registration fee which will cover luncheon, coffee, and a syllabus covering the course on Periodontics. Registration checks should be mailed to the Chicago Dental Society, 30 N. Michigan Avenue, by November 10th and your ticket will be ready for you at the door before 9:00 a.m. Wednesday morning. Registration fee—\$6.00.

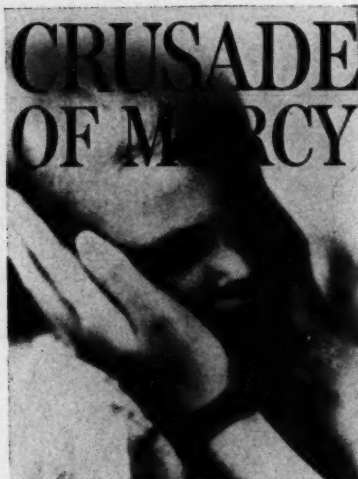

Both programs must be attended by members of the Academy to receive full credit. Admission to the Wednesday all-day session will be by registration ticket only. Get your reservations in early. DO IT NOW!—E. Ebert.

DENTAL PRACTICE ACT AMENDMENT UPHELD

The Illinois Supreme Court, acting on an appeal of a dissolution of a temporary injunction suit brought on March 17th by Eugene E. Cordak doing business as A. B. Dental Plate Laboratory, *et al*, vs. the Reuben Donnelley Corporation, *et al*, by Judge Walker Butler, sustained the trial court's decision and the validity of the amendment to the Dental Practice Act.

To refresh your memory, this was the amendment which limited the listing of dental laboratories in classified sections of telephone directories to name, address, and telephone number, such listing to occupy no more than the number of lines

NEWS OF THE BRANCHES

(Continued from page 14)

all closed up and I got my bow and arrows all in shape and by the time you read this I'll be sittin' up there on Drummond Island. That buck I have been trailin' for the last ten years, died of old age so I've got to start from scratch. Oh yeah! almost forgot but my writin' pomes finally paid off and I won an archery magazine contest with my pome called "Buck Fever." Cash money prize it was, too. Natcherly it's all spent now but if I can get Ol' Al Jason to cooperate with some music maybe we—Daw-gone, it always seems a column can't get by without some unhappy news creeping in. It's Al's daughter, a right bad automobile accident and while she is now recovering all of us who are pappys, know what it is and will suffer along with Al. . . . Plan now to attend the day-long seminar on periodontics the Society is presenting on Wednesday, November 16th. Coupled with the program on Tuesday night, the 15th, it is a complete postgraduate course in this fast-growing phase of dental care. . . . So this is my last column and I hope my style of writing hasn't been too coarse for you. The intention has been to offer a chuckle between news items that tend to become stuffy without some sauce on them. So, to use a Waskaism, I say, so all right, already, I'm quittin'.—*Substituting for Waska—Marion Hopkins.*

North Suburban

Say, how about that program booklet that Doug Meinig and Dick Fischl put out? Remember, the next program will be at Fort Sheridan on Tuesday, December 6th. Come on, you guys, you can still save money on the rest of the meetings by buying your tickets. . . . Fishing was good at the Northwoods seminar. Gene Stearns caught a 37-pound muskie which he is having prepared and served to the Evanston Association at the Monday lunch next week. He was accompanied by Hal Chason, Roundy Davey, Harry Chronquist, O. B. Kibler, and W. O.

Brasmer. This fish is the second largest one caught in the area this year, 'tis 50½ inches long. . . . Chuck MacArthur is the new President of the famous Sanders Study Club. . . . Chuck Schelhas is a new father again. . . . Chet Thorsen spent three weeks in Wisconsin. . . . Tod Dewel is back from conducting a postgraduate course at the University of Southern California. Atta boy, Toddy. Tell them how we do it in the Midwest for a change. . . . Charlie "the kid" Baker accompanied the Northwestern football team to Oklahoma and did his part to show them down there how we play football here. . . . Tom Kaep reported that he received 40 checks the very day after the monthly programs were sent out. Better hurry, there could be a sell-out. . . . Getting ready to go out to the A.D.A. Meeting are, Jim Lynch (Mr. President), Norm Olsen, Prexy Axel Pedersen (when does he work?), Zene Shafer, Doug. Meinig, Corvin Stine, Randy Wescott and O. E. Scott. Must be nice to be affluent. . . . Recently Chuck Cameron provided a full-day program for 15 members of the Ralph Cooley research study club, including luncheon at his home, golf and dinner at the Inverness country club. This was followed by an evening session on design and use of dental equipment as it affects time and motion, plus techniques which have been successful in his office. When are you going to show this to all of us, Charlie? . . . And, plan now to attend the day-long seminar on periodontics the Society is presenting on Wednesday, November 16th. Coupled with the program on Tuesday night, the 15th, it is a complete postgraduate course in this fast-growing phase of dental care.

—Floyd Grover, Branch Correspondent.

Kenwood-Hyde Park

My right-hand man for news items had the audacity to take time away from the office just because of illness, leaving me stranded this time for news. Next time, Larry Johnson, don't let that happen again. We're all so happy to see you back

after a few days away and missed your most chipper and inimitable ways. Keep well. . . . Realizing that by the time this is in print it will be old news and Ed Franklin will be ready for another vacation, nevertheless at the time the news was conveyed to me, Ed was leaving for California for six weeks and traveling throughout the West. Unfortunately, or should I say fortunately, there was so much news for the last issue that there was not enough space to include everything. Hope you had a wonderful time on your vacation, Ed. . . . Ed Schaaf has been winning more tennis tournaments lately. The 7222 Exchange building certainly has its share of champions in the sports life, there's Ben Binderman both in tennis and golf, Ed Schaaf, tennis, Jean Jacobi in skiing, Hal Black in bowling and Dave Torch in puppy raising. Heard he had a brand new Dalmatian. . . . By the way, attention all dental assistants—we are interested in knowing more about you. Won't you please let me know when you have a bit of news for the FORTNIGHTLY REVIEW? Thank you. . . . We have heard that Ben Gans' secretary won a blue ribbon at the County Fair for her handwork in knitting such things as suits and sweaters. This is quite a talent and you are to be congratulated. By the way, do you do the suturing in the office? You're so handy with that thread. . . . Charlie Fischer did it again! It was his time to have the group over for the monthly meeting of the P.B.P. study group, and instead of the conventional home meeting, a great time was had by

all, at the Lincolnshire Country Club of which Charlie is a member. The whole group was invited for a full day as his guests, but only the following were able to partake in a wonderful day of golfing and dining: Ted Fishman of the Englewood branch, Abe Halperin, Dick Perlow, Herb Rosen from South Suburban, and Al Smith. Charlie beat them all. . . . Forgot to mention that Larry Johnson is raring to go again, this time to California and all points west, and of course while in Los Angeles will take in the A.D.A. meeting. . . . Well, this is all for now, hope to see you all at our monthly meetings. Don't miss all the wonderful programs and outstanding meals at Arnold's and Eddie's. . . . And, plan now to attend the day-long seminar on periodontics the Society is presenting on Wednesday, November 16th. Coupled with the program on Tuesday night, the 15th, it is a complete postgraduate course in this fast-growing phase of dental care. . . . Keep well and happy.—Morton J. Fireman, Branch Correspondent.

North Side

The first regular meeting of the Branch was privileged to hear from Professor Maury Massler on "Oral Habits." It is still not too late to take advantage of the special dinner ticket purchase for \$21.00 which will cover the four remaining meetings of the year. . . . According to the meeting dates printed on the dinner ticket which was sent to the entire mem-

bership, it states that the Branch Election takes place at the April 11th meeting. The By-laws of our Branch state that the election may take place at either the March or April meeting, so that the date is not as yet definite and will be announced later. . . . Our next meeting, the Clinic Day on Wednesday, November 23rd, promises to be the most outstanding of famous clinic days. Our previous FORTNIGHTLY column listed the Limited Attendance speakers and our Guest Luncheon speaker. These will take place in the morning and at noon. The afternoon will see an array of top table clinicians of our city: John Kollar, Anthony Gargiulo, and Harry Staffilino on Periodontics; Jim Best and Harold Gerstein on Endodontics; Dan Laskin, Irv Robinson, Howard Adilman and Arno Leshin on Oral Surgery; Paul Chung, and the Dental Assistants from the U. of Illinois on Prosthetics; Corvin Stine, Emmet Boyles, Jane Selbe, and Marv Koslov on Pedodontics; Herb Gordon, Ralph Behm, and Dick Swoiskin on Orthodontics; Fred Kamin, Jules Caplan and I. D. Padore on Operative; Ulysses Argianas on Crown and Bridge; Allen Gerber on Hobbies; LeRoy Levey and the Nutrition Group on their specialty; Art Elfenbaum and Seymour Yale on X-Ray, and Miss Evelyn Maas on Dental Hygiene. See the future FORTNIGHTLY REVIEWS for complete descriptions of our Clinic Day. It will be the best yet! . . . It is with regret that we announce the recent demise of Dr. William G. Burkhardt. Bill, one of the oldest members of our Branch, was a graduate

of C.C.D.S. in 1896. . . . Paul Wittenberg prevailed upon his friend Dr. H. G. Orlay of London, England, to lecture before the Uptown Dental Forum on October 14th. Dr. Orlay's subject, his specialty, "Endodontic Splinting." . . . Bernie Spiro, recently returned from Israel and a round-the-world trip, is Chairman of the Dental Division Israel Bond Drive which is having its dinner honoring Dean Isaac Schour on Nov. 2nd at the Covenant Club. For reservations call Dr. Maury Massler, Dinner Chairman at MO 6-3900. Everyone is invited to honor Dean Schour and if you wish to make an investment in Israel, the stronghold of democracy in the Middle East!! . . . Joe Chulock was in town recently. Joe is retired and enjoying dental meetings and organizational work in Miami Beach. . . . Jack Langer reports the loss of his Mother early in September and that his wife Eve just had surgery. It sometimes comes in bunches! . . . Bob Brening just returned from a 3-month stay at his summer place in Spooner, Wisconsin. He was kept busy with tree planting, fishing and swimming. . . . Ed Shapiro recommends Hot Springs, Arkansas for the relaxation produced by the mineral baths, massage and beautiful scenery. As our Chairman of Group Dental Care Plans he recommends reading the *ADA Journal* of Feb. 1960, page 258, "Survey of State Service Corporations," and the August 1960 *Journal*, page 167, "Effect of ILWA-PMA Dental Program in Private Practice in Oregon." . . . gan and Dan Kreger is doing the same up in Minocqua, Wisconsin. . . . Joe Lasowski had a good rest on a camping trip at Devil's Lake, Wisconsin. . . . Plan now to attend the day-long seminar on periodontics the Society is presenting on Wednesday, November 16th. Coupled with the program on Tuesday night, the 15th, it is a complete postgraduate course in this fast-growing phase of dental care.—*Paul Brown, Branch Correspondent.*

West Suburban

The kickoff to our 1960-61 season proved to be a successful endeavor with 73 plus members attending the dinner and panel discussions on "Lateral Aspects of Dentistry." All talks given by our panelists were most interesting and educational, in fact, many eyes were opened in serious attentiveness when discussions centered on the future expectations of the dental profession. . . . Far West Study Club also went into high gear by having a tremendous turn-out for their initial meeting of the year. Dr. Arthur Krol, speaking on "Full Dentures," was well received by over 60 study club members. At their next meeting on October 27, Mr. Elmer J. Hoffman, U.S. Representative, will be the guest speaker of the evening. . . . Oak Leaf Study Group, which meets the first and third Fridays of the month at the Oak Park YMCA, has a most outstanding schedule for the coming year lined up. Dr. L. Fosdick of Northwestern University is giving a series of lectures on etiology and control of dental caries. Dr. Frank Madden, Dr. Phil Long, and Dr. Lucas Politis, are other speakers up for the coming year. At a recent meeting Arno Brett was installed as president of the Oak Leaf Group, his officer staff include Ed Kritzke, Bill Rogers, and Joe Bone. . . . West Suburban Round Table has its second meeting of the year on Monday noon, November 7th. Dr. Arthur Krol will speak on "Partial Dentures." . . . Another enthusiastic group amongst our members is the newly-formed Com-

munity Hospital dental staff, chairman, Merrill Shepro. Attending one of their recent meetings and demonstrations were M. Shepro, C. Madison, R. Randolph, L. Axelrad, B. McClure, R. Williams, R. Sippy, and J. O'Connell. The group at present is working on plans for a two-day workshop in hospital dentistry which will include actual hospital operating room experience for participants. The group will be limited; therefore, those interested please contact Merrill Shepro in the near future. . . . Congratulations galore in order to the following: To Ed Lynch on being elected Diplomate of the American Board of Oral Surgery. To F. F. Linzer and R. E. DePalma, recent graduates of Illinois, who set up offices on North Avenue in Elmwood Park. To Frank and Mrs. Novak who were visited by the stork (a girl yet!); where's my cigar, Frank? To Herman Roe on the opening of his second office in Winston Park. To Jerry Schoen recent associate of Frank Lucatorto on his becoming a daddy. To Frank Lucatorto receiving assistant Professorship in Clinical Diagnosis. . . . Also we find many men of travels—Ben Lyznicki fished in the Arctic Circle area this summer. Stan Krupka is planning a seven-week trip to the South Seas. Cotter, Butler and Budill attended Hinsdale hospital golf day. . . . John Poronsky, Frank Klepacki, Richard Thometz, and Dave Thompson attended the American Association of Orthodontists meeting in St. Louis. . . . Walter Wicklund is going to continue around the world after attending the L.A. Meeting and expects to be back December 15th (Walking, Walter?). Frank Lucatorto leaving for L.A. on a one-week vacation prior to the meeting to enjoy the sights. As you can surmise, we have a most active membership. . . . Plan now to attend the day-long seminar on periodontics the Society is presenting on Wednesday, November 16th. Coupled with the program on Tuesday night, the 15th, it is a complete postgraduate course in this fast-growing phase of dental care. . . . Until Next Issue.—*J. V. Discipio, Branch Correspondent.*

FAMOUS FOR PORCELAIN

WHERE YOU GET SUPERLATIVE WORK AND — SERVICE TOO

We're really proud of the largest porcelain, bridge, and acrylic department in Chicago. All these men ask is an accurate rubber impression, a good opposing model, correct shade and bite registration. They take it from there, using the newest and best techniques, to produce restorations that more than meet your most exacting esthetic and functional requirements.

What's more, the service is as good as the work. We offer **3-day service** for most types of work in the Porcelain Department. Jobs such as full mouth rehabilitation are completed as quickly as the most careful attention to detail will permit.

And if you live outside of Chicago, you can take advantage of our special prepaid mail service that eliminates postage and those irksome trips to the post office.

We'd like to tell you more about Standard's superior porcelain service. Why not get in touch with us today? A postcard or phone call will do it.

necessary to disclose this information. This amendment was passed during the 1959 session of the Legislature and through it the box type of advertisements which now appear in our classified sections will be illegal and eliminated.

Mr. John Porter, attorney for the Illinois State Dental Society, has notified all telephone publishing firms as well as telephone companies who are involved in classified advertising in Illinois, asking their cooperation.

This is the second time that the Act has been sustained by the Supreme Court and we look for some more effective law enforcement.—E. Ebert.

FRANK WENTZ TO BE HEARD ON C.D.S. RADIO PROGRAM

Dr. Frank M. Wentz, Chairman of the Department of Periodontia and Director of the graduate school of the Loyola University School of Dentistry, Chicago, will be heard on the November 2 program of the Chicago Dental Society, "Your Dental Health," on Station WJJD, 1160 on your dial.

A nationally-known authority and speaker on periodontics, Dr. Wentz is co-author of *Clinical Pathology of the Oral Mucous Membrane*. He has been Chairman of the Scientific Research Committee of the Illinois State Dental Society, and is a past-President of the Chicago Chapter of the International Association of Dental Research, and a member of Sigma Xi, national honorary scientific society.

He received his D.D.S. degree from Temple University School of Dentistry in 1939 and practiced general dentistry

for three years in Fleetwood, Pennsylvania, before taking advanced studies in oral histology and pathology at the Mayo Clinic in Rochester, Minnesota. From 1942 to 1946, he served as a dentist in the U. S. Navy, resigning with the rank of lieutenant commander. Dr. Wentz received his M.S. degree in 1948 and his Ph.D. in 1954 from the University of Illinois College of Dentistry.

PRESIDENT LYNCH LOOKS TO THE FUTURE

CBS radio stations all over the country will be broadcasting messages from the Chicago Dental Society in October as part of a series called "Dimension."

The recorded messages, which will be used during program intervals, concern themselves with our life as it will be in the year 2000. Dr. James N. Lynch, president of CDS, has taped three messages on dentistry and dental health as it could be at the turn of the 21st century.

Dr. Lynch's recordings give possible answers to three questions: "Will we still have to brush our teeth in the year 2000?"; "Will we still have toothaches in the year 2000?"; and "Will people still have crooked or irregular teeth in the year 2000?"

These CDS public service messages on progress in dentistry were arranged by Chicago Dental Society's public relations counsel, the Julian J. Jackson Agency.

AMERICAN SOCIETY OF DENTISTRY FOR CHILDREN ANNOUNCE ANNUAL MEETING

ember 16th, at the Lake Tower Motel, Chicago. Psychologic aspects of the doctor-patient relationship and of rendering dental treatment for the young patient will be discussed. Dr. Henry Fineberg, Associate Professor of Psychiatry, Northwestern University, and Dr. Kenneth Wessels, Past-Professor of Pedodontics, State University of Iowa, now Assistant Secretary, Council on Dental Education, ADA, will be guest lecturers. All members of the profession and their guests are cordially invited. Further information may be obtained from Ronald Rothenberg, 4801 Church St., Skokie.

JAMES LYNCH IS GUEST ON TV SHOWS

Chicago Dental Society president Dr. James N. Lynch has been a guest star on two WTTW television shows in September aimed at furthering children's dental health.

On September 12 and 26, the CDS segment of "Totem Club," from 5:00 to 5:30 p.m., on Channel 11 found Dr. Lynch chatting with Kent More's two well-known puppet characters, "Punch" and "Croc" to encourage pre-school-year dental examinations and good diet habits.

The shows are in a light vein, designed to hold the youngsters' interest by entertaining while instructing.

The two shows were arranged by the Julian J. Jackson Agency, CDS public relations counsel, who also wrote the scripts.

The customer was buying a fountain pen for his son's graduation present.

"It's to be a surprise, I suppose," observed the clerk.

"I'll say it is," the father replied. "He's expecting a convertible."

WHY NOT TELL THEM?

(Continued from page 9)

community is practiced in such a way that you are proud to be recognized as a member of your Society.

Your Society also has a committee to see to it that our State's dental practice act is properly administered and enforced. This guarantees you the privilege of practicing dentistry under the license you have earned. Your Society is continually battling the illegal efforts of those who attempt to reap the advantages of professional standing while meeting none of the requirements. Aiding in this work are the organizations of laboratory technicians. This aid is available to us because the committee within the Society has earned the trust of these groups working together in the unending task of fighting a common foe.

Then there is the dental budget plan sponsored by your Society, making it possible for any person who is solvent to afford the best dental care. Your Society provides an insurance program available to any member of organized dentistry that provides complete insurance coverage for you and for your family at the lowest possible cost. Health and accident, life, group hospitalization, professional liability and other liability, and fire and theft insurance are a necessity for your future.

Our monthly Society meetings are regular refresher courses in all the categories of dental interest. Your office staff may attend these meetings with you so that you can learn together. Our semi-monthly publication, the FORTNIGHTLY REVIEW, as well as the *Journal of the Illinois State Dental Society* and the *Journal of the American Dental Association*, keep our members informed with the latest in

scientific articles. Then there are the branch societies and local study clubs with their lectures and discussions and table clinics. The scientific meetings of the various societies present essays, limited attendance clinics, table clinics, projected clinics, motion pictures, scientific exhibits, seminars, and exhibits of the newest products by manufacturers of equipment, drugs, medicines and materials. These things are all available to you as a member of the Society. And don't forget the great annual Midwinter Meeting where you are given the opportunity to see and hear everything that is new in the world of dentistry.

These are just some of the reasons why being a member of the Chicago Dental Society is so important to each of us. Your officers and directors, all of the men serving the Society on committees or otherwise, deserve your support. They are devoting their time and efforts in your behalf. Come out to the meetings each month and bring a prospective member with you. Any ethical dentist who is licensed to practice in Illinois is eligible. Above all, tell him the advantages available to him as a member. He will readily understand the importance to his future of being a member of organized dentistry. And he will learn, in time, the value of fellowship with his colleagues.

Applicants for Membership

CERNIGLIA, JOSEPH C. (Loyola 1958) North Side, 4554 N. McVicker Avenue. Endorsed by Jerry F. Lerch and Francis V. Banigan.

secret
behind his
“close-up”
smile!*

**Because Trubyte Bioblend achieves natural beauty by following Nature's own plan*

Trubyte Bioblend Anteriors are multi-blended in specially formulated vacuum fired porcelains which follow Nature's basic color patterns, achieving subtle variations of color and translucency within a single tooth. As in Nature, there is no mechanical or contrived definition of color, and the infinite color variety and irregularity of natural teeth is simulated to near perfection.

Your Trubyte Dealer Representative will gladly show you Trubyte Bioblend.

THE DENTIST'S

first line

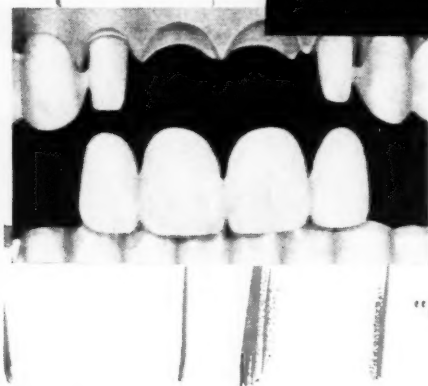

ASSISTANT...

Every operational phase at the Kramer Dental Studio is designed for quality, speed and efficiency to make possible the finest crown and bridge technical service to the dentist.

Kramer crown and bridge restorations, created from the dentist's exact specifications and impressions, contribute materially to his exacting ability in recreating both a physical and mental transformation toward improvement in his patients.

Dentists are face to face with a "Magnificent Challenge" having barely started to tap the reservoir of great arts in their professional field.
